James Troop & Co Limited
4 Davy Road, Astmoor Industrial Estate,
Runcorn,
Cheshire
WA7 1PZ

Company Profile

In 1867, Based in Liverpool, the founder Mr James Troop was a Master Brass Founder and Coppersmith. The Company eventually becoming one of the most respected Ship and Engine Repairers in the Port of Liverpool.

From Steam to Diesel dealing extensively with major shipping companies, The Ministry of Defence, Royal Navy Aircraft Carriers and Submarines.

The Fifties brought new Franchise challenges in the Medium and High Speed Diesel Engine markets. Partnerships were forged with; Rolls Royce, Paxman, Dorman, Perkins and Ruston.

Today our franchises are: Volvo Penta, DEUTZ, MAN and one of the largest Japanese engine builders Daihatsu. We are also approved suppliers of Cummins Parts and Engines.

Our Expertise in diesel engine repair, overhaul and contract servicing now covers applications with a power range from: 10hp to 3500 hp.

James Troop Service customers equipment locally and throughout the World from; Ship Management Companies, Boat Builders, Local Leisure Marine, Utilities - Gas and Diesel - Power Generation, MoD, The Royal Navy, Industrial, Plant and Material Handling applications.

Our Service Engineers - trained by the Original Equipment Manufacturers to service, Medium and High Speed engines giving a first class - Local and Global solution to our customers - supported by our qualified technical, parts and sales teams.

Our Business Management System is ISO9001:2000 accredited and NICEIC registered.

Our Quality Environmental, Health and Safety policies support our OEM trained staff, Service and Contract Servicing activities, Sailing with Vessel Service ensuring a local and global solution for you the Customer.
